

兔抗 USP21 多克隆抗体

- 中文名称: 兔抗 USP21 多克隆抗体
- 英文名称: Anti-USP21 rabbit polyclonal antibody
- 别名: USP16; USP23
- 相关类别: 一抗
- 储存: 冷冻(-20℃)
- 宿 主: Rabbit
- 抗原: USP21
- 反应种属: Human, Mouse, Rat
- 标记物: Unconjugate
- 克隆类型: rabbit polyclonal

技术规格

Background:	This gene encodes a member of the C19 peptida se family, also known as family 2 of ubiquitin car boxy-terminal hydrolases. The encoded protein cle aves ubiquitin from ubiquitinated proteins for rec ycling in intracellular protein degradation. The enc oded protein is also able to release NEDD8, a ubi quitin-like protein, from NEDD8-conjugated protei ns. This gene has been referred to as USP16 and USP23 but is now known as USP21. Alternatively spliced transcript variants encoding different isofo rms have been found for this gene.
Applications:	ELISA, IHC
Name of antibody:	USP21
Immunogen:	Fusion protein of human USP21
Full name:	ubiquitin specific peptidase 21

Synonyms:	USP16; USP23
SwissProt:	Q9UK80
ELISA Recommended dilution:	5000-10000
IHC positive control:	Human lung cancer
IHC Recommend dilution:	40-200
